

UNEARTHING THE PAST

Explore our dynamic collection of fossil murals, tables and sculptures 50 million years in the making

Prehistoric fish, animals and botanicals are ushered into the 21st century through our dramatic assortment of fossils. Each piece is unearthed by hand and transformed into stunning decor or customized as a unique design element for your home or office.

Admired by collectors, architects and interior designers alike, our exceptional museum-quality pieces are windows to the past and uniquely timeless. Naturally embedded in limestone slabs of various

colors, our fossils can be incorporated into your space in a variety of ways. Many of our wall murals are framed in rich wenge wood for a sleek, modern look. Our live-edge murals evoke a more organic aesthetic and are designed to create a “floating” effect against any vertical surface. Our stone slabs can also be customized to create dramatic tabletops, countertops or tiles for use in residential or commercial applications.

No matter how you choose to display our fossils, each piece is a one-of-a-kind work of natural art. Let us help you bring perfection from the past into your home or workspace today.
